

**AMENDMENTS TO THE SPECIFICATION**

Please amend paragraph [0020] of the substitute specification, filed on May 17, 2005, as follows:

[0020] The accompanying drawings, which are included to provide a further understanding of the invention and are incorporated in and constitute a part of this application, illustrate embodiment(s) of the invention and together with the description serve to explain the principle of the invention. In the drawings;

FIGS. 1A ~ 1D illustrate different embodiments of a second end portion of a drain hose of the present invention each showing a 180° bent second bellows, schematically;

FIGS. 1E and 1F illustrate the embodiments in FIG. 1C each showing a 90° bent second bellows, schematically;

FIGS. 2A ~ 2C illustrate different embodiments of a first end portion of a drain hose of the present invention;

FIG. 3 illustrates a perspective view of one embodiment of a drain hose having embodiments of the FIGS. 1C and 2B applied thereto in use;

FIG. 4 illustrates a section of the drain hose in FIG. 3;

FIG. 5A illustrates a section showing connection of a second cylindrical part and a second connection member in a drain hose having the embodiment in FIG. 1C applied thereto;

FIG. 5B illustrates a section showing connection of a second cylindrical part and a second connection member in a drain hose having the embodiment in FIG. 1D applied thereto;

FIG. 6A illustrates a section showing connection of a first cylindrical part and a first connection member in a drain hose having the embodiment in FIG. 2B applied thereto;

FIG. 6B illustrates a connection of a first connection member to water outlet according to FIG. 2C.

FIG. 7 illustrates an enlarged section of an “A” part in FIG. 4;

FIG. 8 illustrates a back side perspective view of a washing machine having a drain hose holder provided thereto, additionally; and

FIG. 9 illustrates a plan view of an embodiment of a drain hose holder.
